

GM&OHS SPECIAL EDITION CAR #36 IN HO AND N SCALE

The Society is pleased to announce our next Special Edition Car, *GM&OHS #36*. For this offering we have chosen the **Branchline Trains Blueprint Series** 50' Postwar AAR Double Door Boxcar. These kits provide the correct sill, improved dreadnaught ends, diagonal panel roof, and Youngstown doors (of differing widths). The **three-car set** will consist of #'s **50101, 50116, and 50121** from the 50100-50124 series of upgraded cars (1967) that had their roofwalks removed (previously of the 9000-9199 series). All cars will be painted green with white lettering and a dash of yellow will appear on two of the cars as warning stencils. In keeping with GM&OHS's tradition of high standards, the artwork has been drawn courtesy of *Vickey Graphics* with paint and printing handled through *Double R Graphics*, assuring that these cars will feature the same level of quality and accuracy you have come to expect from the Society's models. Only 50 HO-scale sets have been produced, so don't delay in submitting your order.

For the N-Scale version, our second release in this scale, a very close stand in has been utilized in the form of **Athearn's** 50' PS-1 Double Door Boxcar. These are RTR cars with a nearly correct sill, dreadnaught ends, Youngstown doors, McHenry couplers, with the roofwalks eliminated, and the same three road numbers as their HO counterparts being utilized. A very limited number of N-Scale sets are available (see the *Switchlist* for further explanation), so order promptly.

**Send the bottom portion of this order form, along with payment made out to GM&OHS to:
 GM&OHS Car #36, P.O. Box 1753, Marion, IL 62959**
